COMMERCIAL INTELLIGENCE.

SATURDAY EVENING, NOVEMBER 2ND, 1878.

ALTHOUGH there is no marked improvement in any one article of Export or Import, still there is, nevertheless, evidence of an approaching better state of things, and a slightly more cheerful tone pervades business here generally. Piece Goods are still only in very moderate demand, but Imports generally show more signs of life, and in Local Made Yarns a large trade has been done. Transactions in Exports are still limited by the small stocks of produce available, but when the New Crops begin to come forward in quantity there are signs of an increased activity in trade. Money continues easy and Freights are very cheap—two very important features in favour of Exports—and all we require to ensure an exceptionally good season are favourable markets in Europe. This is the one point, however, on which more than usual uncertainty exists, and which will doubtless be the source of such adverse influences as we have to look forward to. No amount of calculation will enable one to form such an estimate of the future of European politics as would be safe to operate on, and there will be a tendency therefore to keep transactions within narrower limits than might otherwise be the case. The present state of the Cotton Market in Liverpool is sufficient to deter buyers here from operating ahead in the New Crop, and with prospects of abundant supplies of Seeds, shippers from this side are holding off until arrivals come more freely in the Market, when a considerable decline from the high rates now ruling must result.

Business here opened very quietly after the Dewalee holidays, during which the transactions were unusually limited. Exchange opened rather steadier and closes firm at hardening rates. Money is easy, and the feeling of mistrust which has pervaded business circles of late is rapidly subsiding. Government Securities are weak, but considering unsettling influences at work, rates are very fairly maintained. The Shares Market is quiet but steady. Cotton is depressed with nothing doing for export. Seeds and Wheat with little doing have a downward tendency. In Piece Goods, the demand for recent importations continues very restricted, and the enquiry from the Interior is only moderate. In Metals more has been done at changed rates. Soda ash unchanged. The Freight Market shows no signs of improvement, and with the high rates still ruling outwards from Home, we are likely to have abundant supplies of cheap tonnage here for some time to come.

MONEY.—The last published statement of the Bank of Bombay, for the week ending on the 26th ultimo shows a considerable reduction in the Cash Balances, but the public demand for Money has fallen off to almost a similar extent. No alterations in the Banks rates of interest and discount were made by the Directors at their usual Board Meeting on Wednesday last, and the quotations therefore remain unchanged at 4 per cent. on Fixed Loans on Government Securities, 5 per cent. on Demand Loans, on similar securities, and 6 per cent. on Mercantile Bills. Although there is nothing in the trade of the place, the requirements for which must be exceedingly light for the next two months to lead us to look for any immediate advance on these rates, still the position and requirements of Government constitute an element of considerable uncertainty, and with the prospects of a prolonged war before us on the Frontier, it is evident that these requirements will be sufficient to prevent any decline at all events from present rates.

STERLING EXCHANGE.—Rates opened for the Mail on the basis of 1s. 7¾d. for demand Bank Bill, and 1s. 7 15-16d. for 3 months' sight credits. Very little was done early in the week, but there was a steady feeling, as it was generally believed that no allotment would be made of Council Drafts at the biddings on Wednesday last. On Thursday, however, the telegrams brought the advice of £120,000 having been allotted—viz, £50,000 to Calcutta and £60,000 to Bombay, tenders at 1s. 7¾d., receiving in full. From the smallness of the amount allotted and the comparatively high rate at which the allotment was made, it was evident that the purchase of the Bills was made either with the object of strengthening the rates of Exchange in this Market, or by purchasers who anticipated a withdrawal of the sales for a time altogether. Government has, however, adopted a middle course, and instead of stopping the sales, has notified its intention of reducing the weekly amount to be offered from £400,000 to £200,000, and this announcement has had a decidedly beneficial effect on our Market for the time being, rates for Sterling having advanced 5-16 per rupee since last mail day. There has been considerably more doing here the last two days, chiefly for delivery up to the end of January at 1-16 to ⅛ over the quotations for ready Bills. If Government does not again increase the weekly amount of Council Bills until the end of the year, when our export trade will be much brisker than at present, it seems probable that rates for Sterling will not decline below those now current; for, although no doubt the large sale of Bank Bills, which we record to last week forms a weakening element in the Market, at all events for the portion still uncovered, still it must be remembered that we have just passed through months of unusual depression, and that when a reaction takes place it will probably be a rapid one. Our closing quotations are as follows, viz.:—Bank Bills on demand 1s. 7 7-16d.; 6 months' sight 1s. 8¼d.; Credits, 3 months' sight 1s. 8 1-16d. to 1s. 8¼d.; 6 months' sight 1s. 8¼d. to 1s. 8 5-16d.; Documents, 3 months' sight 1s. 8¼; 6 months' sight 1s. 8¾d. The rate for Mercantile Bills on Paris at 3 months' sight is francs 212.

On Calcutta demand Bills are at 1-16 premium and 60 days' sight Paper is quoted at Rs. 99½.

BAR SILVER is firmer, owing no doubt to the higher rates realised for Council Drafts, and the reduction in the quantity advertised for next sale. The present quotation for the Metal in London is 50¾d. per oz. No shipments have been advised during the week for the East.

GOVERNMENT SECURITIES.—The transactions during the week have been confined to small amounts, as there are neither sellers nor buyers to any large extent at our quotations, which are almost unchanged from last mail day—viz., Rs. 94 for Fours, Rs. 94½ for Four-and-a-half, and Rs. 99¾ for the New Four-and-a-half per cent. Loan.

IN SHARES there has not been much doing, but rates are fairly maintained, and in some instances are rather dearer. In Bank Shares Agras have declined to Rs. 129 and Nationals to Rs. 106. In Land Companies Colabas, after some fluctuations, close at Rs. 10 below our last quotation. In Spinning and Weaving Companies Alexandras have advanced Rs. 5, Hindustan Rs. 20, Jewraz Ballco Rs. 20, Khandesh Rs. 10, Khatow Mucoonjee Rs. 15, Manockjee Petits Rs. 10, Nursey Rs. 10, Oriental Rs. 15, and Colabas have declined Rs. 5, Dhurumseys Rs. 5, Mandvie Rs. 10, and Mazagon Rs. 10. In Press Companies Akber have declined Rs. 100, and Volkers Rs. 25, and Apollo have advanced Rs. 20, and Albert, of Kurrachee, Rs. 10. In Miscellaneous Companies Bombay Fire Insurance Shares have advanced Rs. 250 and Treacher and Co. Rs. 10.

With few exceptions our quotations for Piece Goods remain the same as last week, but the demand is still only very moderate from dealers. Up-country buyers have operated more freely in the Bazaar, the clearances being estimated at about 2,000 packages since the Dewallee, but dealers, having still large supplies to fall back upon, have not bought so freely from first hands, the total sales by Importers being only estimated at 500 packages. There can be no doubt, however, that stocks are gradually being worked into smaller compass, and with the continued favourable crop prospects the up-country demand should steadily increase.

IN GREY GOODS the business of the week has as usual been mainly in Shirtings, of which 6 to 8¼ lb. 39 Inch have been most in request. In Dyed Goods and also in Bleached Goods there has been nothing doing, Turkey Reds are in somewhat more enquiry, but the rates offered by dealers show no improvement as yet. In Local Made Goods there have been no sales reported during the week.

TWIST.—There is still little enquiry for imported Gray Yarns, but Bombay Spinnings have been in request, and about 2,000 bales have changed hands. The Market for these, however, appears to have been rather overdone in China, as by the last mail from Hongkong we hear that, owing to large arrivals and absence of demand for Japan, they are not so strong at the close for Nos. over 14, though lower counts continue to be eagerly enquired for at a small advance. For Turkey Red Yarn there is rather more enquiry, but at no improvement on previous quotations.

METALS.—The Market generally is steady, but quiet. About 2,000 cwt. *Copper Braziers* have changed hands at Rs. 47¼ to Rs. 47¾ per cwt. In *Yellow Metal* a sale of 1,000 cwt. is reported at 37¾ per cwt., which is rather below the last price at which sales were effected. For *Iron* there is still a fair enquiry for the Interior, but there is not much doing in Bombay.

COALS.—With the high rate of Freights ruling at Home scarcely any cargoes are offering for sale here at the present time, and these only at rates considerably above what dealers are willing to pay. The stock on the Bunders are ample for present requirements, and only a retail business has been done during the week.

COTTON.—The Liverpool telegrams during the week reported great depression, and an almost daily decline in rates until Saturday when the Market closed with a somewhat steadier feeling. On last Mail day Mid. Orleans was quoted at 6 7-16d. and Fair Dhollerah at 4 9-16d. per lb. Yesterday's quotations are 6 1-16d. and 4¾d. per lb. respectively. The Receipts for the American Ports for the week are 165,000 bales, which compare favourable with the past two seasons, but there is nothing as yet to lead us to anticipate any decrease in the estimates of the probable total outturn of the crop. With trade in Manchester in its present state and the total absence of speculation at Home a further material decline appears to be inevitable. Here, there is still nothing doing for export in ready Cotton, the supplies of which continue small and of undesirable quality, and the local mills are only buying to supply their absolute requirements. For New Cotton there are sellers at a further decline of Rs. 4 to Rs. 5 per candy for Omrawuttee Jan.-Feb. delivery, but buyers are still holding back in anticipation of a further decline hereafter.

The *Receipts* during the week amount to 3,500 bales, making a total of 24,127 bales since the 1st September against 20,000 bales for the same period in 1877.

The *Clearances for Sea* during the week amount to 6,701 bales, making a total of 720,112 since 1st January against 818,523 bales last year.

NEW CROP.—Prospects continue on the whole favourable, but with the low rates now current, we do not expect to see arrivals of Hingunghaut or Omrawuttee in any quantity until the New Year. A few samples of the former have already arrived in this Market, which do not, however, at all represent the Crop, being from only partially matured plants, and consequently of very inferior quality. From Dholleras the accounts are favourable, and a crop of 260,000 bales is looked for; there is also a larger quantity of Old Cotton in the districts than was generally calculated upon, and being in the hands of weak holders will soon be forced upon this Market.

The following are to-day's quotations for Cotton with equivalents in Sterling, Cost, and Freight to Liverpool, via Canal, without Commission :—

	₹ Candy of 784 lbs.	₹ lb. C. & F.
Old—		
Comrawuttee Good Fair	Rs. 188 = 5 4d.	
Do. Fully Fair	„ 182 = 4 15/16d.	
Dholleras Good Fair	„ 187 = 5 1/16d.	
Do. Fully Fair	„ 182 = 4 15/16d.	
S. G. Dharwar Fully Good Fair	„ 192 = 5¼d.	
Oompta Good Fair	„ 182 = 4 15/16d.	
New—		
Comrawuttee Good (Jan. delivery)	„ 186 = 5 1/16d.	
Do. Good (Feb. delivery)	„ 183 = 4 15/16d.	
Hinguighaut Good (Jan. delivery)	„ 203 = 5 9/16d.	
Dholleras Good (March delivery)	„ 190 = 4¾d.	

SEEDS.—*Linseed* is almost unchanged, but with nothing doing for Export, quotations are a shade easier, and we quote Rs. 6-12 to Rs. 6-13 for ready parcels. For New Seed the quotation is still Rs. 6-4 per cwt. for March delivery, but with prospects of abundant Crops, there are no buyers at this rate. *Rapeseed* is dull. There are no supplies arriving from Guzerat, for which the nominal quotation is Rs. 7-12 per cwt.

WHEAT is slightly easier, but prices still rule too high to allow of anything being done for Export, even if there were available supplies in the Market, which at present there are not. The nominal quotations are Best White, Rs. 88; Mixed, Rs. 36; and Hard Red, Rs. 35 per candy.

The Bombay Gazette

MONDAY, NOVEMBER 4, 1878.

AT this crisis one does not know which to admire most, the duplicity of the Russians or the credulity of John Bull. Now it is understood that the Russians have been all along preparing to strike us through the Amir of Afghanistan, we can fully appreciate the *ruse* of a national subscription for a Baltic fleet, and that other one of a Russian "Alabama" to be fitted out in American waters. No doubt the Russians well knew John's weakness. They had only to menace him with a ship or two to prey upon his commerce in order to concentrate all his attention on that one point. In this way, and by means of bogus fleets and phantom privateers, they succeeded in getting an open field for their intrigues with the Amir. The wonder is that the English nation, which has so often been made the victim of Russian duplicity and perfidy, should go on hoping always against hope that the Russians will improve. Is there never to be an end to this credulity? It is not for want of warnings and advice from other nations that England is so often fooled by Russia. There is not a nation in Europe, except our own, that has not some proverb or epigram about Russian roguery, and we all know that Napoleon the first has placed his experience of the Czar's subjects on historical record in the smart saying, "scratch a Russian and you will find a Tartar." All the foreign journals now wonder, as well they may, how it happens that England so foolishly blinds her eyes to the diplomatic villainy of the Russians, and there is no explanation of the fact unless it is that England acts upon the commercial maxim of honesty being the best policy,—as it generally is in the long run. Perhaps it is better to trust and be deceived than to try and meet wile with wile. Straightforwardness has always been our strong line in India, and it is the most disconcerting of all policies for Orientals. But the Russians are only semi-Orientals after all, and can we do better than encounter their elaborate intrigues with some astounding, because honest, move of our own? Nevertheless, it is vain to deny that the nation now smarts under these diplomatic successes of our rivals, and one reason of Lord Beaconsfield's popularity was in the hope he aroused in the national breast of our seeing an English Minister at last equal to the task of beating the Russians at their own game. The popularity of the Indian expedition to Europe was greatly due to the same cause. Englishmen rubbed their hands and chuckled over this game of diamond cut diamond. Gortschakoff had found his match at last, but they little knew Gortschakoff. The expedition may have been a good move, but only a Russian could guess that the counter-move would be for England a war with Afghanistan. English honesty, straightforwardness, and perhaps stupidity, would only permit our countrymen to turn their telescopes on the ocean, there to look for Russian fleets and cruisers, even while all this time the situation was being nicely warmed for us in Persia and Afghanistan.

It may be in consequence of the smart we speak of, that so many writers are now trying to prove that Russia has exploded the Afghan mine a long way too soon. There is consolation, there is balm for the wound inflicted on the national pride, in thinking that after all Russian has diplomacy is not of quite such a hoodwinking character as was first supposed, and that Russia over-reached herself. But this is only more credulity. Russia has not over-reached herself at all, and the Afghan explosion was timed as nicely as if the fuse had been cut by the most experienced artillerist at Shoeburyness. When did Abramoff conveniently turn up in Kabul? Just at the very time when it was being discovered in Europe that the execution of the Berlin Treaty was a very dubious part of the Russian programme. When was it the Amir was coached up to insolence? Just when it was known in Europe that England really and truly intended to improve Turkish rule in Asia Minor. We think it is very evident that the advance of the Russians in Central Asia and the Afghan mine is all part of a

THE RUSSIAN EXPEDITION AGAINST THE TURKOMAN TRIBES.

SIMLA, Nov. 3.

According to the latest information, General R. Lomaken, who commands the Russian expedition against the Turkoman tribes on the northern border of Persia, had received supplies from the Caspian, and was fortifying himself in the position to which he had returned. The Tekhe Turkomans were attacking his communications.

PROBABLE APPOINTMENT OF GENERAL SIR SAM BROWNE TO A COMMAND.

General Sir Sam Browne is likely to have an active command, probably that of the division now assembling at Peshawur, and to be succeeded on the Governor General's Council by Sir Neville Chamberlain.

(FROM OUR SPECIAL CORRESPONDENT.)

THE QUETTA FORCE.

ALLAHABAD, Nov. 3.

The *Pioneer* states that General Biddulph reached Lehri on the 1st inst. The route *via* Bandowli, Dera, and Lehri was very trying; great heat was experienced during the day, and in some of the marches heavy sand had to be traversed. The Chiefs from Dehra Ghazi Khan accompanying the force are—Nawab Emambaksh Muzari, Nawab Jemal Khan Leghari, and Sirdar Miran Khan Drishak. The Beloochees are rendering the greatest assistance to the troops, furnishing baggage escorts and camels, thereby saving the troops much fatigue.

TELEGRAPHIC WEATHER REPORT FOR ALL INDIA.

OCTOBER 31, 10 A. M.

THE chief features of the meteorology of the past week have been the establishment of the north-east monsoon, and the formation of a small cyclonic centre off the Coromandel coast. Pressure was very uniform last Friday, and has increased steadily in Northern India. Westerly winds consequently set in over Upper India, and northerly or north-easterly winds in Burma, Bengal, Central India, and the Deccan. The cyclonic vortex began to form in the Bay of Bengal in the neighbourhood of the coast of Masulipatam and Vizagapatam. It appears to have been simply stationary in disturbance, giving heavy rain to the coast from False Point to Masulipatam. It is at present filling up. Strong winds at Colombo and Diamond Island indicated stormy weather in the Bay on Tuesday and Wednesday. The rainfall of the month is almost *nil* and below the average in Assam, Northern Bengal, Behar, the North-Western Provinces, Punjab, Rajputana, and Central India, the Central Provinces, and several districts in South of India. The rainfall is above the average for the month at the coast stations of the Bay except Madras and in the Deccan. Masulipatam and Shelapera have been centres of abnormally heavy rainfall. Masulipatam received 21 inches the average for the month being 9 inches, and Shelapera 13 inches, the October average being 3 inches. The deficiency of rainfall over the greater part of India is due to the weakness of the past South-West monsoon. The characteristics of the monsoon have been similar throughout and in accordance with forecast.

CAPTAIN ST. V. A. HAMMICK, Assistant Adjutant General Hyderabad Subsidiary Force, left Simla for Madras on Saturday last. Sir Neville Chamberlain remains at Simla.

THE *Times of India* questions the soundness of our opinion that journalism in England is swallowing up all other departments of literature and appropriating to its service all the best intellects of the age. Our contemporary mentions the names of Carlyle and Dickens, and asks if journalism could claim those great men. But this illustration really helps our argument. Carlyle and Dickens, like Lord Beaconsfield, belong to a bygone generation of men of letters. It is only within the last twenty or twenty-five years that English journalism has gained the predominance of which we spoke; and, as the great authors of the earlier period of Queen Victoria's reign disappear one by one, we find that they have left no successors.

PEOPLE in Bombay are beginning to wonder when the rainy season of 1878 is to come to a close. We had another terrific thunder-storm, attended with heavy rain, on Saturday afternoon, which put a stop to the Volunteer parade. The men assembled in the compound of the Town Hall, and we were glad to notice there was a much better muster than on the previous Saturday; but the names were merely called over, and the Colonel dismissed the parade, expressing his satisfaction at the improved turn out and his regret that the proceedings has been so unfortunately interrupted. During the storm yesterday afternoon a native craft coming down from Callian sunk between Salsette and Maazgon. Some European gentlemen who were out in a jolly boat stood by and saved the crew, four men and a boy.

No. 13 Battery, 8th Brigade and No. 16 Battery, 8th Brigade Royal Artillery arrived at Kurrachee in the Tenasserim on the 28th Oct. The strength of No. 13 Battery is as follows:—5 officers, 1 warrant officer (Mr. Linsdale,) 86 non-commissioned R. and F., and 20 followers. The strength of No. 16 Battery—5 officers, 1 warrant officer (Mr. McMullan) 87 non-commissioned R. and F., 30 followers, and 8 horses. The names of the officers with the former are Major Burnett, Captain Bayley, and Lieutenants McClinstock, Woodrow, and Hull. Those with No. 16 Battery are—Major Blackley, Captain Wighton, and Lieutenants Baker, Norton, and Anderson. They were probably to leave for Moollan on the 1st inst.

AN English critic suggests that Mr. Forbes's article on "The Fiasco of Cyprus" might be more accurately entitled "The Fiasco of Archibald Forbes."

THE native chiefs on the line of march from Multan to Quetta are all displaying most friendly feelings towards the British. Imam Baksh, the principal chief near Loti, and Retchie Khan, the chief of the Chambaries, accompanied General Biddulph on his line of march, and on the arrival of the General at Loti, Shamzan Khan, the chief of the Bugtis, came in to pay his respects and offer his services.

HIS Grace the Duke of Buckingham left Ootacamund for Wynaad on Tuesday morning. Sir Michael Kennedy accompanied the party. The *South of India Observer* believes that the object of his visit is to keep the Government of India directly informed of the latest results of Mr. Brough Smyth's gold-mining investigations.

THE *Englishman*—Reuter's telegram confirms the statement that it has been decided to send an ultimatum to the Amir. As the military preparations now going on are much better calculated to impress the Amir with a sense of the danger he is incurring than any letter, it is difficult to see what can be gained by such a missive as that referred to, except a plausible excuse for the delay which our own unreadiness has forced upon us. As things stand, perhaps, the only harm it is likely to do is in furnishing the Amir a fresh opportunity of laughing at us in his sleeve. When we say this, we of course presume that the letter will be couched in terms so imperative and unambiguous as to leave no room for delusive parleying, and that the time allowed the Amir to reply to it will not exceed what the Commissariat requires to complete their preparations. The incompetence already displayed by the Beaconsfield Cabinet is, however, such as to make it quite possible that it may be otherwise.

THE *Madras Mail*—A letter, purporting to be the composition of an Affghan, appears in the last issue of the *Pall Mall Gazette*, and has been copied into other English and Anglo-Indian newspapers. We only notice it to remark that the letter is a transparent literary forgery; the style and diction are those of the European who has acquired a knowledge of Orientals from books, not from association with them; nor will any Musalman ever address a letter to an English "friend" containing gratuitous insults to his race and faith. On the contrary, they are scrupulous to avoid giving offence in intercourse with those of another religion, though they freely express their real sentiments among themselves. The preparation of the hoax can only be accounted for on the hypothesis that work of some kind has to be found for the idle hands of the so-called translator.

THE *Bombay Guardian*:—We are not sorry that a declaration of war against Afghanistan is reserved till an ultimatum has been despatched to the Amir, and his answer received. The "peace with honour" won at Berlin does not at present look very reliable. Russia is pushing forward her forces into Roumelia, instead of withdrawing them from Bulgaria, and the northern glacier appears not to have been effectually arrested.

THE *Civil and Military Gazette*:—Complaints reach us from officers of native regiments going on service, that their men are not sufficiently provided with warm clothing. The sepoy's great coat of coarse country manufacture has too much shoddy in its composition to be at all efficient for the protection of the life or health of its wearer, in face of the snow and sweeping winds of an Afghan winter. This should be remedied without regard to the false economy which would save two or three rupees at the cost of a soldier whom the State will presently find expensive to replace, if even possible.

THE *Pioneer's* Simla correspondent writes:—There is a lull in the excitement of war preparations, and we have brought ourselves to realise the unpleasant fact that no fighting worth the name can take place before spring. "Ready, aye ready!" is certainly not the boast of the Commissariat on this occasion, and two or three more months must elapse before Colonel Wiles can deliver that sentiment to His Excellency the Commander-in-Chief. Not that the Commissariat Department is to blame. The fact is, nobody is to blame. The finances of this miserable famine-stricken country required rigorous economy in every branch of the administration, and the Commissariat was found to be the first victim at hand to immolate at the shrine of Strachey.

THE *Civil and Military Gazette*:—If the report that the Russian Government has sent a detachment of Artillerymen and Engineers to the assistance of the Amir of Kabul at this juncture, be true, it must be prelude to an open declaration of war with Great Britain. To assist our enemy, is of course to strike at ourselves, and even Russian diplomatic language can hardly find any name for the act, but avowed hostility.

THE *Englishman*:—Here, as well as at home, as a natural consequence of the failure of the City of Glasgow Bank, the names of several commercial houses have been freely bandied about as being involved in the crash. Amongst others it was reported that the Standard Life Assurance Co. was affected. It will doubtless be a great relief to those of our readers who have heard the rumour and who are interested in the welfare of this Company, that we are enabled, on the very best authority to announce that the Standard Life Assurance Co. holds no City of Glasgow Bank shares.

WE hear that there are now no cholera cases in Neemuch. About one-fourth of the force there are down, however, with low fever, and the surgeons are much overworked.

AN occurrence which might have terminated fatally, took place last Tuesday evening at the Town Hall, Calcutta. A batch of recruits belonging to the Volunteers were being put through their position drill by the Corporal Instructor. They were ordered to go through the different positions of loading, presenting, firing, &c., and were expressly told not to load with blank cartridges with which they had been furnished. One of the warriors it appeared, did load, and when the order was given to fire, pulled the trigger, and nearly blew off the head of the Corporal. A severe wigging was administered to the culprit by Col. Walton.

THE native weather-prophets of Madras have (says a local paper) for the last ten days been predicting that the monsoon would come on the 1st November, and sure enough the rain began to fall then, and there was a good steady downpour for some hours. There is every appearance of the monsoon setting in. At Masulipatam they have had heavy rain, and the sea was so rough that the Himalaya steamer, then in the roads, did not stop there.

H. H. MIR ALI MOORAD of Khyrpore has offered a reward of Rs. 500 for the apprehension of the parties concerned in the murder of the Mahomedan while returning lately from a visit to Khyrpore, of whose tragical end a report has already been published. The name of the murdered man was Kurreem Ally Sha. A correspondent, writing from Larkhana under date the 24th Oct. to the *Beacon* states that two of the murderers have been apprehended; three were disciples of the deceased. The men confess their guilt, and state that five or six persons are implicated in the fiendish deed. The reason they assign for committing the murder is, that their victim had been misappropriating monies belonging to their *pir*, Zurbooliah Shah, whom they hold in high reverence."

THE Maharaja of Johore returned to Singapore on the 20th October.

THE *Penang Gazette* reports the surrender of the notorious Arab, Habib Abdul Rachman, who for many years has exercised such preponderant influence over the destinies of Acheen. In fact to him the Acheen war may, in a great measure, be ascribed. In 1873 he left Acheen for Turkey, where he made fruitless efforts to enlist the assistance of the Sublime Porte against the Dutch. He returned to Acheen early in 1876 and successfully incited the Achinese to a desperate and prolonged resistance, and this was no difficult task for him, considering the widely-spread influence he possessed in Acheen, and the animosity of the Achinese then prevailing so strongly against the Dutch nation. But lately the progress made by the Dutch arms, and the privations entailed upon their enemy by the duration of the war, has led even the most hostile chiefs to relent their belligerent policy and incline towards peace. The shrewd Abdul Rachman seeing his position as foremost leader of the war-party in jeopardy, owing to the growing disposition of the Achinese to come to terms, made overtures to the Dutch authorities on his own personal behalf, and we can well understand that the Dutch did not let the opportunity pass of removing him from Acheen territory.

Truth—I wish that our Ambassador in Turkey would be good enough to settle the question whether he is to be called Sir Henry, or Sir Austen, or Sir Austen Henry Leyard.

THE account of Mr. Edison's invention of an electric light well suited to street illumination and cheaper than gas has (says the *Pall Mall Gazette*) naturally caused no little alarm among holders of shares in the gas companies. "Mr. Edison's wonderful invention of the phonograph puts him out of the list of mere theoretic experimentalists, and it is quite possible that he has succeeded in dividing the electric flame to a far greater extent than has yet been effected. What effect this may eventually have upon the gas companies, we do not presume to say. Frequently inventions of this kind prove advantageous to powerful associations with large capital and means of distribution at hand, even though they entail the supersession of a large portion of the present expensive plant. But the momentary alarm is none the less reasonable, and we fancy few Londoners who are not themselves shareholders will feel much compassion for the companies. They have traded upon our necessities for years, and have given us the lowest value possible for our money while poisoning the air with the fumes arising from the imperfectly purified gas they purvey. There is not a city in England or in Europe supplied with such bad gas as London. The foreign capitals supplied by English companies are infinitely better off. It is to be hoped, therefore, that Mr. Edison's invention will at least frighten these almost uncontrolled monopolists into more liberal dealings with their customers." The new invention has created a perfect panic among the holders of gas shares in England. The *Financier* of Oct. 11 says:—The market for gas shares yesterday was again the scene of considerable agitation, and prices fluctuated very widely. In the early hours heavy speculative sales were made, with the effect of driving quotations down, in some instances as much as 10 and 12 per cent. After official hours, however, the current showed a distinct turn, and prices again moved up on "good" buying with extraordinary rapidity. Among the cases of extreme fluctuation during the day, we may instance imperial Continental shares, which, after "marking" 138, closed at 150 to 152, and Gas Light and Coke "A" Ordinary, which after changing at 144, experienced a rebound to 152 to 154 at the last.

THE *Pioneer*—There has been so much talk respecting the so-called robbery of papers from Dr. Forbes Watson's department, that the following report of the India Office Committee, which reaches us from London, may not be without interest:—"The report of Messrs. Wontner, the solicitors who have been employed by the Secretary of State to investigate the reported robbery of papers from the desk of Dr. Forbes Watson, between the evening of the 8th and the morning of the 9th January last, has at last been received and has been referred to us by the Secretary of State for consideration. It is stated in the report that in the opinion of the solicitor and the detectives employed, the only persons who, so far as can be ascertained, could have had access to the room in which the reported robbery occurred between the time when Dr. F. Watson left it in the evening of the 8th and the morning of the 9th are, Mr. Colvin, the resident clerk, the office keepers, policemen and servants on duty in the office on the night in question, and that they are satisfied there is no reason to suppose that any of these persons had any knowledge whatever of the occurrence. We think it desirable that the opinion of the solicitor should be communicated to Dr. Forbes Watson, and circulated generally in the office."

A NEW ROAD WANTED.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—I remember reading in your paper about three months ago, when Mr. M. N. Banajee drew the attention of the Municipal Commissioner to the opening of the Frere road so as to connect it with Lawrence de Lima Street, Mazagon, that the matter had been under consideration for a long time past, and that this work would be included in the Budget for 1879. As I cannot find any provision in the Budget for this important and much-needed road, I trust you will permit me to call the attention of the Municipal Commissioner to the omission, in the hope that it may yet not be too late to rectify it. I wish the representatives of the Mazagon ward, who I see have been re-elected, would in future better look after the interests and wants of the ratepayers by whose votes they are elected.

A MAZAGON RESIDENT.

A VERY GREAT GRIEVANCE.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—There is the usual preparation being made on the Esplanade for the reception of the military staff of H. E. the Commander-in-Chief during the ensuing cold season, and we presume that we shall see the sorry spectacle repeated of the second officer of this Government being provided with a residence occupying what would be considered by most if them a cowshed at home, cockered up with tents to make the place at all habitable, and this when H. E. draws good sumptuary allowances. However, the public are not so much concerned with H. E.'s quarters as they are with those of his staff. In former years the Quarter-Master General's Department had the common decency to, when pitching the encampment to leave a large space clear of the best and most cheerful walking area near the bandstand, for those who might not care to recline in their carriages, and for the many who could not afford that luxury, so that exercise and pleasure were duly combined, and permitted of those fond of hearing music to get a chance of the sounds reaching them from about the only place they could be well heard. The Quarter-Master General's Department are sly dogs, and a little unscrupulous to boot, and during the last two or three seasons they have gradually encroached on the public convenience, until this year they have made their grip *coup*, and have cleared the public out of their right of way altogether. Has H. E.'s staff increased this year, or is it that some young addition to the Quarter-Master General's staff, who has been entrusted with the pitching of the encampment, has been anxious to show his Imperial, or Jingoist proclivities, and has turned out the *hoi polloi* for those he considers their betters. The feelings of the governing and the governed towards each other are not of the happiest, and it is the addition of such straws as these that, at last, break the camel's back. I am one of the public, but not a

PUBLIC SERVANT.

BOMBAY.

ON Saturday, at the Cathedral, Mr. Lewis officiating, was celebrated the marriage of Mr. Buckland, of Calcutta, with Miss Balfour, the daughter of the Hon. Mr. Mackintosh Balfour, Secretary to the Bank of Bombay. The Managers of all the Banks were present, as also the heads of most of the mercantile houses, while the Bench, the Army, and the Navy were respectively represented by Mr. Kemball, Mr. Melvill, General Ballard, Colonel Sexton, and Captain Tracey of the "Spartan", &c. The service was not choral, but Mr. Mant performed on the organ with his usual good taste—the march at the end of the service being especially admired. After the ceremony the guests, some seventy in all, repaired to Mr. Balfour's bungalow on Malabar Hill, where, after admiring the many and handsome presents to the bride, the party sat down to a most *recherché* breakfast. In a speech distinguished by its delicacy of tone and sentiment General Ballard proposed the health of the bride and bridegroom, and the latter made a spirited reply. The best man's speech in proposing the bridesmaids was a perfect piece of art of its kind. For the satisfaction of our lady readers we may mention that some of the dresses were very beautiful. The bride wore a rich ivory-white satin, and the bridesmaids pale blue silk with lace.

THE Austro-Hungarian Lloyd's *s. s.* Vorwaerts, Captain G Marussick, from Trieste, left Aden for Bombay on the 2nd instant.

A VAGRANT.—A European, named Thomas Sweeney, was on Saturday declared a vagrant by Mr. W. Webb, and ordered to be sent to the Government Workhouse.

NICOL PRESS AND MANUFACTURING COMPANY.—An extraordinary general meeting of the shareholders of this company was held on Saturday last at their press building, Marine Street, Fort, Mr. Nusserwanjee Manockjee Petit in the chair. The resolution to appoint Mr. Ahmedbhoy Hubibbhoy secretary and treasurer in place of Messrs. W. Nicol and Co., which was passed at a previous meeting, was unanimously confirmed.

THE Municipal authorities, with the assistance of the Police, endeavoured on Saturday night to obtain a census of that part of Bombay called Dongree, which is very thickly populated by natives of all castes, but principally Mahrattas. The object of this enquiry arose, we hear, out of the heavy mortality which is reported daily from that quarter.

AN EPIDEMIC AMONG THE TRAMWAY HORSES.—An epidemic, we hear, prevails amongst the Bombay Tramway Company's horses, and a large number affected by it are laid up. The number of cars usually running have been consequently much reduced, so much so that those plying between Boree Bunder and the Market have been obliged to be drawn by manual labour. The diminished number is causing great inconvenience among the public who use this mode of travelling.

FATAL ACCIDENT.—A Coroner's inquest was held on Friday last, at the Goculdas Tejpal Hospital, on view of the body of a Hindoo girl, about nine years of age It appears that on Wednesday evening last she went, taking a glass bottle, to purchase some oil, and on the road she tripped and fell with the bottle under her, which broke. A piece of the broken bottle penetrated her abdomen, causing a deep and severe wound. She was at once removed to the Hospital, where she died on Friday last. A verdict of accidental death was recorded.

A DISHONEST HORSE-BROKER.—On Saturday last Shabooddeen Kamaloodeen, a horse-broker, was convicted by Mr. W. Webb of criminal breach of trust in respect of a sum of Rs. 100, the property of Captain E. Elton, of the Bombay Marine. It appears that the complainant entrusted the accused with the sale of his horse in August last, which was effected for the said sum with the consent of the owner, who authorised the accused to receive the amount from the purchaser and pay it over to complainant. This was not done, and it was discovered that accused had misappropriated the said amount to his own use. He was sentenced to four months' rigorous imprisonment.

ALLEGED ILL-TREATMENT ON BOARDSHIP.—On Saturday last, at the Fort Police Court, before Mr. C. P. Cooper, a seaman of the British ship Austrianna, named John Cooper, was charged by Captain Gillis, the master of that vessel, with wilful disobedience in refusing to do duty on board that ship, of which he is an articled seaman. The prisoner denied the truth of the charge, and said that he was ordered by the chief officer, Mr. McKintosh, to perform unreasonable work which he ought not to be expected to do. Having refused to do that, he was seized by the chief officer, assisted by the second officer, tied down and then beaten with a rope, several lashes having been inflicted on him. He then applied for leave to come on shore to see a Magistrate, which was refused; a message was then sent to the Police hulk by the captain for a constable, and he was given in charge for refusal of duty. Mr. Constable Collett, the police officer who went on board the Austrianna to take the prisoner into custody, stated that on hearing the complaint made by the prisoner as to the beating he had received, he examined him, and found marks of violence on his person; further, on questioning the chief officer on the subject, he admitted the correctness of the prisoner's statement. His Worship thereupon adjourned the hearing of the case to the 5th instant, and ordered that summonses be issued for the appearance of the chief officer on a charge of assault, and for three seamen belonging to that vessel as witnesses on behalf of the defendant, John Cooper.

MARATHI TRANSLATION OF SMILES' "SELF HELP."—We are happy to acknowledge receipt of a copy of a Marathi version of Smiles' *Self Help*. A translation of the entire work nor is the translation a close one. It makes a book of 90 pages. We can hardly doubt that this little book will be gladly welcomed by many who are not able to read the original. It is well fitted to stimulate the young to improve their powers and their time and to encourage and to shake themselves free from the wretched habit of dependence that has had such a blighting effect upon the people of India. Local allusions are not wanting; mentioning the poet Wordsworth the author cannot refrain from passing compliment to his descendent in Bombay. The book is entitled *Swapurkrhrum*. This hardly expresses the idea of self-help. *Swamshanat*, if such a compound were allowable, would better express the idea.—*Bombay Guardian*.

THE BISHOP'S TOUR.—The Bishop of Bombay is expected by the mail which left Southampton on the 30th Oct.; after staying a week at Aden, he will arrive in Bombay about December 3rd. He will leave Bombay on tour at the end of December. The dates cannot with certainty be fixed at present, but they may be stated approximately as follows:—His Lordship will leave Bombay by the steamer of 30th December for Mandvie and spend Sunday, 5th January, at Bhooj. Returning to the coast, he will cross over to Jurie, and fortunately only a short passage, then to Rajkote, remaining over Sunday, 19th. Thence *via* Wudwan and Ahmedabad, he goes to Deesa, where he may be expected on 26th January. He hopes to be at Aboo on 2nd February, Odeypur 9th February, Neemuch 16th February, and at Nusseerabad about 2nd March. His Lordship's movements after Nusseerabad are uncertain; he will probably make a journey into the Bengal Presidency, to meet the Bishop of Calcutta, and make arrangements for admitting the Central Provinces into the Diocese of Bombay. The Bishop will spend the hot weather at Mahableshwur.—*The Bombay Church Chronicle*.

MORE THUNDERSTORMS IN BOMBAY

FROM the settled appearance of the weather in Bombay since the thunderstorms of Friday and Saturday week, we had regarded the North-Easterly monsoon as now well established, and reasonably calculated upon experiencing at length the dry and uniform weather which almost invariably prevails at this advanced time of the year. But the terrible bass of Friday and during the night presaged to the weather-wise more storms and rain, which duly arrived on Saturday evening in a severe form, lasting for a few hours, and which again gathered up yesterday evening, bursting over the town with hardly less severity than the storm of the previous day. The fall of rain as registered at Byculla from Saturday up to 6 p.m. yesterday was 1 in. 75 cts., which with that previously registered make a total of 122 in. 98cts. This season's rainfall is now, therefore, the heaviest on record, that which fell in 1828 (viz. 121 in. 98 cts.) having maintained its preeminence for 50 years. It continued to rain heavily for no less than two hours yesterday evening after the hour at which the above mentioned register was taken.

THE VOLUNTEER CONCERT AT PAREL.

ONE of those pleasant little social gatherings which so conduce to the welfare and good fellowship of a Volunteer Corps took place on Saturday night in the Mechanics' Institute, Parel, under the auspices of the A. Company of the B. B. and C. I. Railway Volunteers. The room, which was very tastefully decorated for the occasion, was filled to overflowing, and the heavy storm of rain which had hardly passed away ere the Concert began, seemed to have no effect in deterring the audience from enjoying the treat which had been prepared for them. We were glad to notice a good many Bombay Volunteers present, a sign of the good feeling which exists between the local corps. The songs and glees were extremely well rendered, but it would be invidious to particularise where all acquitted themselves so ably. Several well-known ladies and gentlemen gave their assistance, and the honorary organist of the Cathedral deserves the warmest thanks for giving his able services. We must congratulate Sergt. Dodson and all who assisted him on the success of their efforts, and we trust that this will only be the beginning of a series of such entertainments, always remembering that "Unity is strength."

ARRIVAL OF THE 11TH N. I.

THE Indian Government *s. s.* Dalhousie, Captain W. Powell, Commander, arrived in harbour early yesterday morning from Cutch Mandvie, having on board the eight wing of Her Majesty's 11th Regiment N. I. under the command of Major G. G. H. Fulton, consisting of 2 European and 8 native officers, 320 non-commissioned rank and file, 36 women and 56 children. The detachment proceeds by special train this morning to Poona, where it will be stationed.

BOMBAY PORT TRUST.

EXCERPTS from the proceedings of a meeting of the Trustees for the Port of Bombay held on 31st October.

Read letter dated 29th October from the Traffic Manager, proposing that the Trustees should provide stables for the accommodation of cattle. Resolution—the Trustees cannot undertake to supply stabling for cattle. Submitted the following leases for execution—to Kessowjee Essoor of 240 square yards on Mody Bay Imperial Estate; and to Jumnadass Premjee of 240 square yards on Mody Bay Imperial Estate. These were signed by the Chairman and by two Trustees, and the Secretary was ordered to affix thereto the seal of the Trust.

At the meeting the Resident Engineer submitted a plan and estimate for a range of godowns to be used for the storage of kerosine oil. It is proposed to erect these godowns on a site adjoining the Elphinstone Bunder godowns, and they are estimated to cost Rs. 26,934. Resolution, sanctioned, with the modification that the walls should be of brick nogging.

The following were amongst the papers laid on the table:—

Government Resolution sanctioning the lease to Shalome Issajee for 50 years of 705 6-9 square yards land on the Elphinstone Estate.

Letter from the Traffic Manager dated 28th ult reporting that about 3,500 logs of timber were washed out of the timber ponds at Tank Bunder into the Harbour on the night of the 25th instant.

Letter from the Acting Deputy Conservator and Master Attendant dated 29th instant, forwarding copy of a report received from the Captain of the B. I. S. N. Co's. *s. s.* Byculla, and of his report to Government regarding the stranding of that vessel on a spit of sand off Khor Ziyarali in the Persian Gulf, which is not indicated in the chart.

FIRE AT THE HINDUSTAN MILL.

ON Saturday evening last, at about 6 o'clock, a quantity of loose raw cotton that was stacked in a shed adjoining the premises of the Hindustan Mill, situated on Haines Road, was discovered to be on fire. Fortunately the workmen had not left the premises, and their assistance was of material aid to the Police in their endeavours to extinguish the fire. In this they succeeded before the steam fire engine from Mazagon arrived. It is believed that the origin of the fire was due to a flash of lightning, as shortly before the fire was discovered a sharp flash was observed that brilliantly lit up the mill buildings, and created much alarm amongst the workpeople. The damage done is estimated at about Rs. 1,000.

THE BOMBAY SAW MILLS COMPANY.

AN extraordinary general meeting of shareholders of the company was held on Saturday last at its registered office, that of Messrs. W. Nicol and Co., for the purpose of appointing secretaries and treasurers in their stead. Mr. W. Gordon was called to the chair. Messrs. W. M. Macaulay, J. Cruddas, and A. McKenzie were the only other shareholders present in person. The articles of association say:—"The *quorum* of a general meeting shall be six shareholders, present in person or by proxy, holding in the aggregate at least sixty shares."

The chairman said there were four shareholders present, and they had got proxies from shareholders holding several hundreds of shares; so that the meeting was fully competent in that way. It was not necessary to say much, as they all knew that Messrs. W. Nicol and Co. had on numerous occasions stepped into the breach, and become to appoint secretaries and treasurers in place of them. To carry on the business in the meantime, the directors had appointed Messrs. W. Macaulay and Co. the secretaries and treasurers. Mr. Macaulay was thoroughly acquainted with the work. Quite apart from any other thing, the chairman thought that was the very best appointment they could make.

It was proposed by the chairman, seconded by Mr. Cruddas, and resolved, that Messrs. W. Macaulay and Co. be appointed secretaries and treasurers of the company in the place of Messrs. W. Nicol and Co., resigned, the remuneration to be the same that was paid to Messrs. W. Nicol and Co.

The proceedings ended with a vote of thanks to the chairman.

REMARKABLE EFFECTS AND FATAL ACCIDENT BY LIGHTNING.

THE storm of Saturday night was in no way differed from the several unusual storms which have occured during last month, except that a death from lightning occurred at Colaba in a cowherd, who, while watching his master's buffaloes, had taken shelter from the storm in an open shed on the western foreshore behind the old barracks at Colaba. The shed is used as a skittle alley, and is open all round, except at the northern end which is closed in by a butt about two and a half feet in height. A Hindoo lad, about 14 years old, the son of a *gowlee* (or milk vender) at Colaba, and a lad of more than usual intelligence, was a witness to the death of the cowherd who was killed by the lightning. On examination by the Coroner this lad said, that when the rain became heavy he went to the hut to shelter and got

THE CODE

OF

CIVIL PROCEDURE.

(Act X. of 1877.) with Notes of Cases and an Appendix, by J. O'Kinealy, Bengal Civil Service.

EXTRACT FROM PREFACE.

THE great changes introduced by the Code of Civil Procedure have rendered it necessary that those who are called upon to administer the law should have placed before them, in a convenient form, the interpretation put upon Act VIII. of 1859, by the several High Courts in India and the Judicial Committee of Her Majesty's Privy Council, the most important changes in the practice of the Mofussil Courts have been caused by the introduction of the English Procedure in regard to parties, and discovery. The Editor has embodied in the notes the results of the latest English cases on these important subjects. The total number of cases referred to is about 4,200.

"A monument of good and careful work is Mr. J. O'Kinealy's edition of the Code of Civil Procedure as last remodelled in Act X. of 1877. * * * * * We would recommend every Lawyer in the country to provide himself with a copy of this work."—*Englishman*, September 6th, 1878.

CHARIVARI'S

Third Christmas Annual and Almanac.

On or about November 30*th*, 1878, *will be published at the*

CHARIVARI OFFICE, 10, DACRE'S LANE, CALCUTTA,

Charivari's Third Annual for 1878 and Almanac for 1879.

Price, Re. 2-8; or with Mofussil postage, Rs. 2-12.

THE ANNUAL will be copiously illustrated by the best European Artists in India; the Calendar, especially being embellished with artistic borders, exhibiting designs of great beauty, and the whole will be bound in a richly ornamented cover, forming an appropriate and elaborate title page.

The Contents will comprise Tales, Poetry, Conundrums, &c., &c., after the fashion of the ventures of this class periodically appearing in England at the Christmas Season. Several gentlemen of known literary ability, both here and in England, have been communicated with, and have promised to contribute, and general contributions are invited.

Bearing in mind the very considerable success which has attended their former Annuals, and having in view the fresh attractions of both Literary and Artistic which they are now offering, the Proprietors confidently expect the support of their Subscribers and the General Public.

GRIFFITHS' NEW ZINC WHITE PAINT possesses the following advantages over White Lead and Oxide Zinc:—

Covers 100 per cent. more than Oxide Zinc.
Do. 25 do. do. White Lead.
It retains its whiteness under all conditions.
Will stand 500 degrees of heat.
Will never blister.
Is non-poisonous. Has no smell.
Has no chemical action upon metals.

This substitute for White Lead received the highest praise at meetings of Society of Arts, London; and Social Science Congress; is used by English and German Governments.

The following are a few extracts from numerous Reports already received:—

PROFESSOR PHIPSON, says: "It is one of the most ingenious and useful discoveries of modern times."
